### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The District has a 20-year replacement schedule for fire apparatus, consisting of 15 years of first-line service and 5 years of reserve service. The District is seeking to replace two heli-tenders, a 1975 International (HT5-49615) and a 1972 Dodge (HT8 F2015). The District is also seeking to replace one water tender, a 1990 International (WT81 49690).

The heli-tenders have high mileage and replacement parts are unavailable. There is a greater predictability of maintenance and serviceability with the new apparatus. The new heli-tenders will provide a greater support base for the helicopter fleet. Additionally, acquisition of the heli-tenders would lessen the need for emergency repairs for the current apparatus.

The water tender has high mileage and replacement parts are unavailable. As a result, the front-wheel drive and transfer case were removed, eliminating the vehicle's off-road capability.

### **Implementation of Strategic Plan Goals**

This purchase supports the County's Strategic Goal #2 for Workforce Excellence by enhancing the quality and productivity of the District's workforce.

### **FISCAL IMPACT/FINANCING**

The total estimated cost of the two heli-tenders and one water-tender is approximately \$910,000. The District's 2006-07 budget includes sufficient funding for the purchase of the heli-tenders and water tender.

Maintenance costs will be funded within the District's existing budget. There is no impact on net County cost.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The nature of response requirements, firefighting and automotive technology, and accepted National Fire Protection Agency standards have changed dramatically over the last 20-year period and the new apparatus will be significantly more efficient and effective than the apparatus they are replacing.

On October 16, 2001, your Board adopted a policy whereby departments must obtain Board approval to purchase or finance equipment with a unit cost of \$250,000 or greater prior to submitting their requisitions to the Purchasing Agent. Therefore your approval is required.

### CONTRACTING PROCESS

This is a commodity purchase under the statutory authority of the Purchasing Agent. The purchase will be requisitioned through, and accomplished by, the Purchasing Agent in accordance with the County's purchasing policies and procedures established by the Internal Services Department.

### IMPACT ON CURRENT SERVICES (OR PROJECTS)

The purchase of two heli-tender diesel trucks and one water-tender diesel truck will greatly enhance the District's ability to protect lives, the environment, and property in a safe, efficient and cost-effective manner.

### CONCLUSION
